ANNUAL REPORT OF THE CITY MARKET AND WEIGHMASTER

Lansing, Mich., Jan. 2, 1931.

To the Honorable Mayor and City Council.

Gentlemen:

The season just past has been the most successful inthe history of the City Market. More sellers have registered on the market this year and more buyers have availed themselves of the opportunity to purchase their supplies at the market than any other year in the history of the city market.

The record attendance was in the summer and early fall when the market space was inadequate to accommodate the growers or buyers. During the months of July, August and September from three to five sellers were turned away each market day for lack of space.

The market has been too small for the last five years to accommodate the sellers who would like to come here to sell their produce. The market should be enlarged and part of it enclosed for a winter market so that ample space would be provided for them and relieve the crowded and congested condition.

The receipts received from stall renters is $2,628.00. The collections from those who do not rent stalls is $3,039.95. Received from Lorenz Bros. for 12 months rent at $15.00 per month, $180.00. For use of market for 18 auctions at $3.00 per day, $54.00, making the total receipts from the market $5,901.95. This is a gain of $2,685.45 over last year. $87.00 stall rent is uncollected at this date. The receipts from the scales is $534.75. Total receipts of Market and Scales, $6,436.70.

Yours very respectfully,

A. E. VANDAWALKER,

City Market and Weighmaster.

Invocation by Rev. S. W. Large of the Michigan Avenue M. E. Church.

The record of the previous session was approved as printed.

RETIRING MESSAGE OF MAYOR TROYER

Gentlemen of the Council:

Tonight I conclude seventeen years of public service. During the past four years I have attended 194 Council meetings and was absent 18. In reviewing the accomplishments of the city administration for the past four years, I am not unmidful of the fine co-operation I have received from your Honorable Body, the various board members, department heads and city employes. Knowing, as I do, the operations of municipal governments in Michigan, I do not hesitate to say that this co-operation and harmony has been of an outstanding nature and for this I want to gratefully thank all those who have been associated with me in the conduct of the government of our city. During these four years the door to the Mayor's office has never been closed nor has admittance been denied to any person regardless of wealth, religious creed, social standing or otherwise. All were able to come and lay their case before me.

We have been able to keep the tax rate of Lansing at a point where it has been much lower than in many cities of its size. The 1930 city tax rate was the lowest in five years. The rates for the past five years being as follows:

1926	12.20
1927	11.64
1928	11.67
1929	11.96
1930	11.62

The total city bonded indebterness on January 3, 1927, was $7,636,900 and on January 3, 1931, it was $6,535,700. We were therefore able to reduce the bonded indebtedness of the city during the past four years $1,101,200. On January 1, 1931, there was cash on hand in the city treasurer's office, in all funds. $793,602.87. The assessed value of the city is $154,668,091.00. In 1927, the Lansing Street Railway Company owed the city $83,240.08 in delinquent taxes and accrued interest. Arrangements were made and a contract entered into with the company whereby $2,500 per month was to be paid on this account and up to January 1, 1931, $73,500 had been paid. Personal delinquent taxes had been allowed to run from year to year until the amount that had accumulated was over $100,000. Arrangements were made whereby a special collector was employed and up to date has collected approximately $70,000 in personal taxes.

During the past four years storm and

sanitary sewers built in different parts of the city aggregated 19.8 miles, most of which was constructed of vitrified pipe. Our sewage disposal system is ahead of schedule and according to the agreement entered into with the state, is to be completed in 1934. The policy adopted by the council in placing the annual amount to be expended on the project in the budget, has been adhered to and if continued will see the system completed without the necessity of a bond issue.

The police department has been strengthened by the acquisition of a radio broadcasting station which is necessary to do efficient police work in these times. A new patrol wagon was purchased, light weight uniforms adopted for the men for summer use, the installation of steel lockers for the force, the organization of a competent school patrol system and the placing into operation of a traffic bureau with a traffic director in charge.

Five of the fire stations were altered, enlarged and improved to give greater accommodations and conveneince to the employes. Number Five Fire Station was enlarged to accommodate another pumper which has already been ordered and will be placed in the very near future. A new fire station was constructed at the corner of Hayford and Michigan Avenues which will serve the eastern part of the city.

Lansing's bridges are now all in good condition. New structures were erected over the Grand River at Grand River Avenue, Saginaw, Logan Street and Island Avenue. The most important improvement along this line was the Logan Street Viaduct. The viaduct at Pennsylvania Avenue was greatly improved, the Michigan Avenue Bridge was also reinforced with new steel and put into excellent condition. No new bridges will be required for many years to come.

We constructed 21.03 miles of pavements, most of which was concrete base with asphalt top. We also built several miles of asphalt pavement laid on top of gravel. Our experience with this has been that it works well where there is sufficient depth of gravel in the street and the cost is about one-third of the other type of pavement. In 1927 we started a new plan of financing the cost of paving by placing the city's proportion of the costs, estimated, in the city budget and thereby making available more money for the construction of pavements. Previous to this time the city's proportion of the cost was paid out of the proceeds of paving bonds sold. Twenty-nine miles of streets were provided with curb and gutter, and 16.88 miles of new streets added. There are now 205 miles of streets within the city limits of which 71 miles are paved, 48 curb and gutter and 86 miles of gravel streets.

A new cemetery has been developed. This is located one-half mile east of Mount Hope Cemetery and is known as Evergreen Cemetery. The Red Cedar Golf Course was developed as was also the course located on Mount Hope Avenue just west of Mount Hope Cemetery. The Park and Cemtery Board, during the past year, leased the Inter-City Golf Course and used it in connection with the other courses. Many new tennis courts were constructed, much needed equipment placed in our parks, a number of baseball parks, including an enclosed municipal ball park, provided as well as a number of skating rinks. Lansing has 639.6 acres of park property and 160 acres of cemeteries. Approximately 135,000 games of golf were played on our links the past year. There are 40,000 trees in Lansing streets; 253,593 people attended reunions in the city parks the last four years; 100,000 people used the swimming pool in the last three years; 170,000 people used the tennis courts in the last two years; 141,914 people used the skating rinks in the last two years; 30,000 people attended the 14 movies at Potter Park; 191,380 people attended baseball games in 1930; 21,750 people attended soccer games in 1930; 21,000 people attended diamond ball games in 1930 and the playground attendance for the past three years was 467,144.

A new animal house was built at Potter Park to house all the animals at the zoo.

In 1929, a full-time recreational director was employed, the School Board paying one-half of his salary and the city the other. Every citizen well knows the good work which has been done during the past year by this department.

The Board of Electric Light and Water Commissioners has done splendid work during my administration. A fine new six-story office building was provided, additional acreage for the purpose of drilling new water wells was secured, a large addition to the Moores Park plant provided, all without bond issue and all costs were paid out of surplus on hand. This property which belongs to the people of Lansing is one of the greatest institutions anywhere in this country and I have taken a great interest in observing the development of this property and have taken special pride in co-operating with the board. During my incumbency I was approached four times, relative to the sale or lease of our light and power properties and each time the proposition was vehemently repulsed.

Unquestionably Lansing has one of

A collaborative digitization project of the City of Lansing and Forest Parke Library and Archives - Capital Area District Libraries

the best garbage collection and disposal systems of any city in the country. Shortly after assuming office in 1927, we entered into a contract with Rice and Plant of Portland, Michigan, for the disposal of our garbage. The garbage is hauled in large tanks from our transfer station to a farm owned by the above firm and fed to pigs. Our method of collection and disposal of garbage is much cheaper than that of a city where garbage is disposed of by incineration.

A childrens' home was built and this is located just east of Oak Park and has sufficient facilities to provide for 60 children. This is a modern building and one of the best in the state. Lansing has fared much better than many cities in the country in the matter of contagious diseases. The emergency hospital located on East Michigan Avenue is operated under the direction of the Lansing Department of Health but the expenses are paid by the County Board of Supervisors. A competent staff of trained nurses is in charge of this hospital and the citizens should make greater use of this institution.

In 1930 a tract of property immediately south of the city service property was acquired. During the fall of 1930 the old frame sheds were replaced with modern sheds, thus eliminating a fire hazard.

Improvements have been made in the assessor's office which makes it possible for this department to give better service to the public. An addressograph system was installed and now citizens receive their tax statements by mail, thus making it possible for them to pay their taxes by check and thus eliminate the tiresome method of standing in line at the treasurer's office to do so. More space was made available and more vault room provided for the safe keeping of records. Photostatic copies of all Lansing plats are now on file in the Assessor's Office which is a great convenience. In 1930 there were 28,928 descriptions of real estate and 1,615 items of personal property on the assessment books.

Audits have been made of all the books each year and the reports of these audits are on file in the City Clerk's office.

Considerable equipment for street cleaning and snow removal has been added which enables the Superintendent of Public Works to keep the streets in good condition.

It is needless to mention the fact that the international depression, which not only hit Michigan and the United States but the entire world, has thrown a great burden upon the Welfare Department. Many men in good standing in ordinary times have been obliged to seek aid from the city. A complete record of all materials furnished to the unfortunate has been kept for the past four years, and anyone wishing to reimburse the city for assistance received may do so as an itemized account is kept in the department. The cost for aid given annually for the past four years has been as follows:

1927	$30,871.63
(This includes Social Center)	
1928	20,554.81
1929	49,401.75
1930 (8 months)	80,933.46

I cannot refrain from mentioning the able way in which the Council Committee has handled the situation in the face of great difficulties. Mr. O. A. Cook, the director, has been most faithful and conscientious in the discharge of the duties of that office.

It is worthy of note to mention that in the past four years the validity of not a single issue of bonds which received the approval of the City Attorney has been challenged. I do not recall an instance in which tax rolls have been set aside. Every ordinance passed during this period has stood the test in courts. I mention these facts because they are not generally known and their existence has led to the public welfare in a sense of security which is not excelled in any city.

Several gifts which were presented to the city are worthy of note and I wish to mention the park located at the foot of Townsend Street which was presented to the city by R. H. Scott and is greatly enjoyed by the children in that part of the city. Former Mayor J. G. Reutter presented the city with an Electric Fountain located in Central Park. We thank these gentlemen for these gifts. The proceeds from the sale of the old Social Center were used in the construction of the new children's home and we thank Mr. R. E. Olds for this.

The citizens of Lansing in 1930 appropriately expressed their appreciation of the great services rendered by the veterans of all wars by approving the purchase of an appropriate building for their use. This building was dedicated for the uses and purposes for which it was intended and I trust it may stand as a Temple of Peace thrown for years and be a source of comfort to all veterans, their families and friends.

In laying down the gavel which was placed in my keeping four years ago tonight, I wish to thank you, gentlemen of the Council, for the spirit of co-operation you have manifested and the assistance you have given me. I wish to thank all department heads, members of the different boards and all municipal officials and employes who have so faithfully and conscientiously served the public with me. I also desire to

A collaborative digitization project of the City of Lansing and Forest Parke Library and Archives - Capital Area District Libraries

thank the people of Lansing who have assisted in encouraging, by word and deed, public officials in the performance of their public duties. I gratefully thank the people of Lansing for having given me the privilege to serve them and it has been my constant aim to serve all the people all the time. It is with a deep sense of gratitude that I acknowledge the many acts of kindness which the people of Lansing have always manifested to me and my family and I trust I may retire from the office of Chief Executive and carry the good wishes and good will of my people with me.

I thank you.

LAIRD J. TROYER,
Mayor.

MAYOR'S MESSAGE

Gentlemen of the Council:

In entering upon the discharge of my duties as Mayor of the City of Lansing, I have no desire to give you any extended message on the state of affairs in this city.

I am convinced that many of you are more fully aware of conditions here

A collaborative digitization project of the City of Lansing and Forest Parke Library and Archives - Capital Area District Libraries

than I, because you have been in intimate touch with public affairs and have had years of experience with the City Government, and I have no doubt that you fully appreciate its needs and its problems. I expect to become conversant with public affairs as speedily as possible, so as to qualify myself to discharge the duties of my office intelligently and honorably.

I have no intention of inaugurating any great reforms or of over-turning any system of operation that has been in vogue unless we can all be convinced that the welfare of the city can best be promoted by doing so.

I do have a desire to be able to give an administration as Chief Executive of this city that will not disappoint my friends who have been loyal to me throughout my candidacy for this high office, and I trust that I will be able to meet with the approval of the voters who have reposed their confidence in me by selecting me to be their Mayor.

In accepting the office I appreciate the responsibilities incidental to its administration and I feel the need of your co-operation and assistance and the aid and encouragement of all the people of Lansing to the end that we may administer the affairs of this city to the best interests of all concerned.

I shall not enumerate the many problems that are surely to confront us in the future further than to call your attention to a few of the most important that I am sure will soon be presented to us for consideration. One of these is the City Market.

The City Market will at no great distant time, claim our attention. It is rapidly becoming inadequate to accommodate the dealers and patrons in its present location, with the congestion of business inside the market and also the streets about it. On market days this congestion becomes a source of inconvenience and some times of danger. A possible extension of the present plant or abandonment of the present site, and a re-location of it, will eventually be before this body for consideration as an imperative necessity.

It has also been frequently called to my attention that there will possibly be presented a plan for the location and erection of a new Union Depot to facilitate railroad passenger traffic and convenience. This will, in all likelihood, be referred to this body and will deserve our most serious attention.

I especially direct your attention to conditions of the Departments of City Government now housing in the City Hall. The Welfare Department, as it is now located, is improperly housed in quarters that are not adequate to its needs. It is badly located and inconvenient for handling the business that goes through the office.

The City Jail is badly located, unsanitary and unsafe; the Police Department needs larger quarters, in fact many of the Departments are fast becoming overcrowded and inadequate. These conditions have been brought about by the rapid growth of the city.

At some future time this subject will demand your attention and we should have in mind that the solution of this problem can be best met by a new City Building, which will take care of the Police Department, City Jail, Municipal Court and possibly the Welfare Department, and will relieve the congested condition of this building.

I am reliably informed that the United States government is contemplating a new federal building in th s city in the near future and that the appropriation therefor may soon be made. I also understand that there is some question about the government being able to build such a building according to its present plans on its present location, and that the site now owned by the government is not large enough to accommodate the building proposed to be built. Should this happen, the present postoffice site would, in all probability, be available to this city for the erection of such quarters as are needed.

I believe that it would be advisable on the part of this Council to have these things in mind and to investigate, through a special committee of this body or otherwise, and ascertain if these facts are true to the end that proper provision can be made upon our part to avail ourselves of this site should the facts justify such action.

There are also a number of available sites, owned by the city, upon which such a building could be erected.

If I were to call your attention to any one special subject, it would be economy in public expenditures. Many of you are painfully aware of the unusual industrial depression through which we are passing. This depression is a matter of serious consequence to a great many citizens of Lansing. The condition demands serious consideration and should keep us mindful of the expenditures of public moneys. Retrenchment in high cost of government is very much like charity—it should begin at home. No public money should be spent but in a manner consistent with good, sound business judgment and to promote the happiness and welfare of the people of the City of Lansing.

I also understand that there has been a new fire station built on Michigan Avenue East and an addition erected to the fire station on South Washington Avenue, and that neither of these acquisitions to the fire department have

A collaborative digitization project of the City of Lansing and Forest Parke Library and Archives - Capital Area District Libraries

been equipped or manned; that a new auto patrol has been provided for the Police Department, and that all this will cost approximately $65,000, exclusive of the furnishings of the two stations. That there has been no appropriation for this expenditure from the 1930 taxes and that it is proposed that these things be added and taken from the tax appropriation of 1931.

I have also been informed that the Welfare Fund for the past fiscal year will be largely overdrawn, and that arrangements will have to be made to borrow money to reimburse this fund until another appropriation can be made and the tax thereon collected. In view of this fact, I would urge that you exercise special care in the expenditure of public monies for the coming year, for I am convinced that we can perform no greater service for the City of Lansing under the present industrial conditions, than to keep the taxes as low as they can reasonably and decently be kept.

There are a great many problems of grave importance that will confront us and which may arise most unexpectedly. It will be within our province to consider and act upon them with a sincere determination to solve them aright and in their solution I express a most earnest desire to work harmoniously witt this body so that in all things we can be of mutual assistance to each other.

A large part of the responsibility of promoting the welfare of this city devolves upon you. The public policy of this municipality is yours to direct and in no way shall I undertake to dictate what that policy shall be. I shall be content if I can aid and assist you from time to time with such information as I can gather of affairs in the city, which shall always be available to you.

I expect to devote my entire time to the city's business and its government and will always be accessible to you or any citizen. I have no particular pride of opinion in matters of business policy and in things of public concern, but I do have a very decided notion that public business and public affairs can be conducted in an orderly and reasonable manner. I have no enemies to punish or friends to reward, but I do have pride enough to very earnestly desire to perform the duties of my office intelligently and in a way that will be acceptable to the citizens of Lansing.

Redwood, Maryland, Fletcher, Smith, Colvin Court, Ray, Riley, Grant, Rose Court, Hayford, Lindbergh Drive, Lansing, Beulah, Roberts Lane are the streets that have been graded and graveled, a part of them being the original improvement, the others after curb and gutter had been built by the Engineering Dept.; 2 alleys were graded, Woodbine and Marion avenues are partly done and will be completed next year; David, Mt. Hope, Pattengill, Pleasant and River, started the previous year, have been finished; the grading and graveling of Merrill street was ordered in 1929, but nothing could be done because of the sewer being built; it will receive early attention next year.

During several weeks a large number of men were busy cutting weeds; in many cases they had to cover the territory twice as the weeds soon grew up again after the first cutting. The cost of the street weeds was $3,009.78 and the amount assessed (ordered by the City Council) was $3,184.69.

Guard rails and fences at dangerous street ends have been built and repaired; drinking fountains have been looked after and 5 new ones bought, the last horse fountain in the city removed, miscellaneous work at the skating rinks, ball park, airport, Memorial Temple, placing and later removing for the Merchant's association and Christmas trees on the streets, placing and keeping in repair street, school, parking and stop signs, conducting the Spring and Autumn "clean up" weeks.

With the use of 10 cars of calcium chloride, sprinklers and flushers the dust was taken care of, a vast amount of refuse was picked up from the streets, and many loads of leaves collected. Residence streets were cleaned twice during the week, and the businss streets each night. A daily record was kept of all flushing and cleaning done on the trunk line streets in the city and reported each month to the Comptroller, who received also a report of what work was done by every truck, tractor and maintainer belonging to the department. In the winter tractors and horse-drawn plows remove the snow, an ice-melting solution is now being tested and many loads of cinders are being put on the slippery crosswalks.

Our motorized equipment consists of 4 sprinklers, 2 flushers, 3 sweepers, 4 maintainers, 1 snow loader, 6 tractors, 2 cars, 10 trucks, and nearly all of them are in constant use.

Repairs and supplies for the City Hall, North Lansing and South Lansing Rest Rooms have been looked after, and report made of receipts; the city's commission follows:

Long distance telephones	$ 44.57
Lock toilets	95.51
Gum machines	10.25
Vending cabinets	148.53
Penny scales	167.12

Two small jobs, but greatly appreciated by the people living nearby were the improvement of Holten street, it now being opened through to Hyland street, graded, graveled, and "sidewalked;" and putting Greenlawn avenue into good shape where it was

A collaborative digitization project of the City of Lansing and Forest Parke Library and Archives - Capital Area District Libraries

opened across the old interurban right of way.

The Service Dept. pay rolls made in my office have amounted to $16,460.28 and those of the Dept. of Public Works $113,189.85, besides many checks mailed out each week on vouchers allowed by the City Council pertaining to the two departments.

Respectfully submitted,

Whereas, the legislature of the State of Michigan is now in session in the City of Lansing, and,
Whereas, it is necessary that the State legislature approve any or all leases of State lands, and,
Whereas, that property owned by the State of Michigan and described as the Lansing Airport is State land, and,

To the City Council of the City of Lansing.

Gentlemen:

The attached resolution was referred to me for attention:

I am calling your attention to Section Two (2) G which gives the Traffic Commission power to pass such resolutions as it may see fit and fixing the penalty for the violation of the resolutions so passed by the Traffic Commission.

The section, I believe, is invalid as the City Council has no right to delegate authority to the Traffic Commission, especially to make resolutions, and making the violations thereof subject to prosecution.

Very respectfully,
RICHARD RAUDABAUGH,
City Attorney.

Referred to Committee on Ordinances.

February 6th, 1931.

To the City Council of the City of Lansing.

Gentlemen:

The resolution of Ald. H. H. Campbell asking that the penalty date for the assessment of curb and gutter tax on Riley Street on lots in Morningside Subdivision be fixed at July 31, 1931, has been referred to me.

I take it that this is a postponement of the penalty date and not a postponement of the payments, and think that the same can be done in accordance with Section 258 of the City Charter.

Very respectfully,
RICHARD RAUDABAUGH,
City Attorney.

Received and placed on file.

To the Honorable Mayor and City Council of Lansing.
Gentlemen:

At a meeting of the Council held February 24th, the following motion was made, passed, reconsidered and referred to the City Attorney:

"That the penalty on all December, 1930, taxes paid by March 16th, 1931, be remitted."

I am referring to Section 147 of the City Charter which provides that after the December roll is placed in the hands of the City Treasurer, the City Treasurer shall proceed at once to the collection of same. If any taxes are unpaid on the 31st day of January, there shall be a penalty of four per cent for collection thereof, which penalty shall belong to the Contingent Fund.

This section also provides that the treasurer must account to and pay over to the County reasurer, the State and County taxes collected on or before the first day of March next following.

Section 4050 of the tax law, compiled in 1923, also provides that the City Treasurer must settle with the County

Treasurer March 1st, following the collection.

Section 4087 of the tax law provides: To all taxes unpaid on the first day of March next, after their assessment, there shall be added interest at the rate of three-quarters of one per cent per month or fraction thereof, and to all taxes returned to the County Treasurer, there shall be added a collection fee of four per cent. Such interest and collection fee shall be collected with such taxes, and the interest and taxes to be paid to the State, County and Township in proportion to their several rights therein. The collection fee paid and the county fee shall belong to the general fund of the county. . . .

The only penalty that the Council can remit would be the penalty that belongs to the City of Lansing which would be from the first of February to the first of March. The four per cent fee provided for in the statutes belongs to the county and state under the statute.

Very respectfully,
RICHARD RAUDABAUGH,

I appoint on this committee:
Ald. Clare Dunham, Ald. H. H. Campbell, Robert E. Sanderson, Henry Croll, Scott Baker.

May 1st, 1931.

The Honorable Mayor and City Council of Lansing, Michigan.

Gentlemen:

At a meeting of your body on the 18th of May last you referred to the City Attorney requests of one F. L. Webb and H. L. Travis, who requested this city remit to them penalty on city taxes of 1929 and 1930, paid by them to the Auditor General of the State of Michigan.

These requests came as a result of a resolution of this Council passed on the 11th day of May last in which it was determined by this body that those who paid the city taxes for 1929 and 1930, should not be compelled to pay this penalty, but if the actual tax was paid a receipt would be given in full for taxes in those years.

Both of said requests were referred to the City Attorney for a written opinion. The resolution that was passed on May 11th, was in harmony with Act No. 75 of the Public Acts of 1931, which authorizes payment of State taxes and giving a receipt in full therefor, without adding the interest and penalty charges upon the 1929 and 1930 tax.

This resolution of May 11th is in harmony with previous resolutions of this council remitting the penalty on current taxes. Insofar as the validity is concerned, there is no authority in the Charter or the Laws of Michigan authorizing this body to remit any penalty; but the previous resolutions, remitting penalties, has been acquiesced in and has been permitted to go on without interference by common consent, and no objections have been raised to it.

In reference to the city taxes for 1929 and 1930, the situation is somewhat different. These taxes have already been returned to the County Treasurer and to the Auditor General and they must be paid to those officers and cannot be collected by the City Treasurer. These officers refuse to recognize the legality of this resolution and are collecting the penalty so that in order for persons who pay these taxes to take advantage of the resolution of this council passed on May 11th, they must present claims for same to this council and have the amount paid as penalty returned to them by the city, when the money has been sent to the city by the Auditor General and County Treasurer.

There is no express authority in the law for returning or remitting penalties. In support of this, I call your attention especially to Section 147 of the City Charter which provides that if any taxes shall remain uncollected on the 31st day of January following their assessment, the City Treasurer SHALL thereafter collect four per cent penalty, and under the statutes which was not repealed by Act 75 of the Laws of 1931, the County Treasurer is authorized to collect interest and penalties on taxes payable to the State and County collected by him, so that I am quite doubtful about the legality of Act No. 75 of the Legislature, remitting penalties, recently passed, and there is no express authority anywhere authorizing this city to remit, or to return penalties fixed upon taxes.

Very respectfully,

RICHARD RAUDABAUGH,
City Attorney.

Received and placed on file.

May 25, 1931.

REPORTS OF CITY OFFICERS

Received and placed on file.

City Treasurer submits report showing receipts and payments from the several city funds and the standing of the city funds on the 31st day of July.
Received and placed on file.

Hon. Mayor and City Council:
Lansing, Mich.
Gentlemen:

The Traffic Commission wishes at this time to submit the following facts and with them the request for your approval of an expenditure not to exceed $1,500.00 for the purpose of a traffic survey of the city.

First—There are now approximately 35,000 automobiles registered in Lansing and 43,000 in Ingham Co. and of the 8,000 in the county, 25 per cent must be considered as increasing our traffic problems.

Second—No particular effort has ever been put forth to obtain a true picture of conditions or to set up a plan, as our traffic regulations, with a few local exceptions, have been copied from other sources.

Third—An unbiased survey will tend to create a better feeling of co-operation with all of our citizens and a portion of this expense will be paid to Lansing labor through the welfare department.

Fourth—Federal and state authorities are at the present time making a survey of tourist traffic through Lansing, as part of a $200,000.00 state wide survey, the results of which are available for our survey, providing they are used within the very near future, and will reflect a saving from our estimate.

Fifth—Census figures tend to indicate a definite rate of growth in the population of Lansing. Such increases mean heavier traffic and added traffic problems for which a plan should be prepared.

Sixth—Receipts amounting to $4,586.50 have been turned into the contingent fund by the Traffic bureau for the first seven months of 1931, which tends to prove that the estimated cost of the survey can be defrayed from the Traffic Bureau receipts above its $3,200.00 appropriation.

We respectfully submit the above facts and ask that you place an amount not to exceed $1,500.00 at our disposal that we may immediately undertake this survey.

Yours truly,
The Traffic Commission,
H. H. HARDY,
Chairman.

Referred to Committee on Ways and Means.

Honorable Mayor and City Council,
Lansing, Mich.
Gentlemen:

The Traffic Commission hereby recommends that a parking limit of two hours be placed upon East Ottawa Street between Grand Avenue and Grand River.

This is an ideal parking block as it is off from traffic streets but it seems to us that a parking limit should be placed thereon so that a larger number of people might make use of this free parking space.

We are suggesting that an immediate change be made in section 36 article "c" of the ordinance to include this parking limit.

Yours truly,
The Traffic Commission,
H. H. HARDY,
Chairman.

Referred to Committee on Ordinances.

To the City Council of the City of Lansing,
Lansing, Michigan.
Gentlemen:

At a meeting of your body on the 28th

A collaborative digitization project of the City of Lansing and Forest Parke Library and Archives - Capital Area District Libraries

day of July last the undersigned was instructed to take such measures as was necessary to collect the full amount of personal taxes from the receiver of the New Way Motor Company.

In attempting to carry out these instructions I proceeded to prepare a petition to file with the Circuit Court asking that such proceedings be had as that said taxes should be declared a preferred claim and paid in preference to other claims, of said company.

In preparing this petition it was necessary to go to the files and records of the proceedings in said receivership. In searching the files I discovered that in October, 1930, the receiver had filed a petition asking the Circuit Court to pass on and allow certain claims, among which was the claim for taxes of the city of Lansing, and that afterwards on the 16th day of December, the court made an order allowing this claim against the receiver, which order was entered allowing said claim for taxes as an ordinary claim, and ordering dividends to be paid thereon. By said Decree and order of the court said claim was not allowed as a preferred claim, and that records further reveal that the same was never presented to the receiver as a preferred claim.

I am of the opinion that the only remedy the city of Lansing had was an appeal to that order; that no such appeal was taken and that the time for appeal has long since elapsed and that the city of Lansing has no remedy in the matter, and that any further proceedings therein would be fruitless.

Very respectfully,
RICHARD RAUBABAUGH,
City Attorney.

Received and placed on file.

In accordance with resolution in regard to insurance passed by the City Council May 3, 1926, I report the following insurance policy expirations.

To the Honorable City Council of the City of Lansing,
Gentlemen:
Pursuant to the call of the Federal Government, it is my duty and pleasure to name a City Committee for the celebration of the 200th anniversary of the birth of George Washington, with suggestions for plans and programs in line with the government's preparation for that event. which officially begins February 22. 1932, and ends Thanksgiving Day, 1932.
By Act of Congress, a national celebration committee was appointed in 1924 which includes the President of the United States, Chairman, the Vice President of the United States, and members of the United States Senate and House of Representatives and prominent Americans.
All governors of states and mayors of cities have been requested to organize their official fields.
It will be the greatest patriotic demonstration in history.
Americans in London and Paris have organized Bicentennial committees. Several European Republics have done the same. It will be a world-wide affair.
Several states and cities have issued their programs some time ago.
Lansing, in responding to this patriotic call, must organize to equal in spirit and comparative performance the celebration of any other city in the country.
Each man, woman and child in the city must be a self-appointed committee to do honor to the occasion.
Being the capitol of the state, much will be expected of Lansing during this Bi-Centennial. It is obviously impossible to include in committees, the names of all the hundreds of patriotic men and women who deserve this honor. As the time for the centennial approaches the committees will be simplified and made more direct. The City Committee will be known officially as the "Lansing Committee for the celebration of the 200th Anniversary of the Birth of George Washington."
The General Committee will be an honorary committee composed of men and women from all walks of life, representative of different organizations which have to do with the social, patriotic and business advancement of Lansing and its environs. The executive committee will be the active, supervising committee.
The following is a general proposed program on significant dates and anniversaries in the year 1932 as suggested by the government:
FEBRUARY 20-21, SATURDAY-SUNDAY—Commemorative services among all religious bodies in the United States in memory of Washington and the founders of the Republic.
FEBRUARY 22, MONDAY—(1) Public meetings with programs timed as to receive broadcasting of address by the President of the United States. At the close of this address a grand chorus of the nation by every man, woman and child singing "America" led by the Marine Band at Washington.
(2) Bicentennial Ball on the order of the Century Ball of 1900—under auspices of appropriate patriotic society. Costumes and costume dances, periods of 1776 and 1812 and of the Mexican War, Spanish War, Civil War and the World War.
Club and social patriotic parties, luncheons and dinners individually sponsored.
Special school and other celebrations.
APRIL 19—Patriots Day—Anniversary Battle of Lexington.
Patriotic societies — exercises. A "Paul Revere" ride to Lexington, Michigan, sponsored by appropriate patriotic society has been suggested.
APRIL 30—Anniversary Washington's First Inauguration as President—sponsored by appropriate patriotic society.

A collaborative digitization project of the City of Lansing and Forest Parke Library and Archives - Capital Area District Libraries

MAY 30—Memorial Day — Special wreath and flower day. Tribute to deceased patriots and pioneers of the city, state and nation by appropriate societies—All-inclusive "Day of Remembrance."

JUNE 14—Flag Day—It is suggested this day be sponsored by the Boy Scouts, etc., reproducing the "Tag your home with a Flag" Drive of 1918.

Universal Flag Display and Betsy Ross social functions.

JULY 4. The Nation's Birthday—Under the auspices of the city government—Patriotic pageants, picnics and music in all leading parks, public fireworks portraying patriotic characters and events.

SEPTEMBER 5, MONDAY—Labor Day—Auspices Labor organizations—Tributes to George Washington, the Liberator and Laborer for the good of mankind.

SEPTEMBER 17—Constitution Day—For especial attention of Ingham County Bar Association.

Public reproduction of the United States Constitution proceedings.

NOVEMBER 11—Armistice Day—Leadership of the day naturally falls to veteran groups of the World War.

Washington, the great military leader and genius of the Revolution, a man of Peace. The crowning happiness of his life was the peace and security he lived to see established in his beloved country.

NOVEMBER 24—Thanksgiving Day—National gratitude for the character and transcendant service of Washington.

All of these celebrations can easily be arranged for by the executive committee, through various organizations to be represented on the General Committee. but it is my suggestion that the Fourth of July Celebration should be handled directly by the City Council and the City Government. That is a National Holiday and the City Government should function.

In compliance with the request of President Hoover and Congress, expressed through the United States Government George Washington Bicentennial Commission, I hereby appoint the following committees:

Industrial

Motor Wheel Corporation, Harry Harper, president and general manager; Reo Motor Car Company—R. H. Scott, president; Olds Motor Works—D. S. REPORT OF CITY OFFICERS

LANSING, MICHIGAN,
September 21, 1931.
Honorable Mayor and City Council,
Lansing, Michigan.
Gentlmen:
In the proceedings of this body on the 14th day of this month in considering what to do with Section 43 of the Traffic Ordinance, I discover that in the course of its consideration there was a motion made to eliminate the section and passed.

I am of the opinion that the section cannot be treated as repealed in that way and there has been prepared an ordinance repealing this section in expressed terms, which I think is the only way that it can be disposed of in a manner satisfactory to this body, as indicated by your motion of September 14th.
Very respectfully,
RICHARD RAUDABAUGH,
City Attorney.
Received and placed on file.

September, 17th, 1931.
To the Honorable City Council,
Lansing, Michigan.
Gentlemen:
Your attention is most respectfully directed to the following resolution adopted by the Merchants Association, Inc., of Lansing, Michigan, September 15th, 1931:
WHEREAS, Michigan's bumper apple crop this year at prevailing prices promises to be more of a liability than an asset to the Michigan farmer and fruit grower, and,
WHEREAS, last winter many of the unemployed in the larger cities of the state were enabled to eke out a living selling apples on the streets, under licenses issued by the municipalities, and,
WHEREAS, all apples sold were grown in states other than Michigan and such sales worked to the disadvantage of Michigan farmers and apple growers, despite the fact that the Michigan grown apple is the most healthful and best flavored in the world, therefore be it
RESOLVED, by the Merchants Association, Inc of Lansing comprising the leading merchants of the city, all deeply interested in Michigan and the welfare of its citizens, that the Mayor and Councils of Lansing and East Lansing be requested to issue no apple selling licenses during the coming winter unless the licensees agree to offer for sale only Michigan grown apples, and be it further,
RESOLVED, that Governor Brucker be requested, to lay plans immediately through the State Department of Agri-

culture, the Marketing Division of Michigan State College, and the agricultural agents in the various counties tending toward a system of collection and distribution to make possible the sale of Michigan grown apples exclusively by the unemployed sellers throughout the state.

I would most respectfully suggest that this council concur in this resolution and that we use our utmost endeavors to carry out the suggestions therein contained.

Very respectfully,
PETER F. GRAY,
Mayor.

By Ald. Templeton—

That the Council concur in the Mayor's recommendation.

Carried.

To the Honorable Mtayor and City Council,

Gentlemen:

At a meeting of the Board of Health held on Sept. 17, 1931, the following resolution was adopted:

"By Dr. McIntyre—

Carried."

REPORTS OF CITY OFFICERS

City Comptroller reports on condition of department funds from May 1st to October 31st, also city's financial condition at the close of business October 31st, 1931. Received and placed on file.

Gas inspector makes his report for the month ending October 31st, 1931. Received and placed on file.

City Treasurer submits a report of the receipts to and payments from the several city funds and standing of the funds on the 31st of October, 1931. Received and placed on file.

November 4, 1931.

Honorable Mayor and Members of the City Council,
Lansing, Michigan.
Gentlemen:

Sometime ago this Commission recommended that street cars be stopped at the north end of the switch on South Washington Avenue, just south of Barnes Avenue in order to eliminate a congested district.

Since that time a survey has been made and it is found that the street car traffic is very limited while the automobile traffic is exceedingly heavy. This being the fact, this Commission again recommends that the street cars going south be stopped before entering the

switch in order to eliminate the present hazardous condition.

If the street car company would remove this switch and extend a single track to Smith Avenue, in the center of the street, the sars could then stop at Smith Avenue which would relieve the condition and only cause the passengers of the street car line to walk a short block to the north.

Apparently, this switch is of no use and could easily be removed.

Yours truly,
THE TRAFFIC COMMISSION.
CHARLES BARBER.
JAS. S. BURNS.
E. C. DUNHAM.
M. S. GRAHAM.
H. H. HARDY.

Referred to Committee on Transportation and Sixth Ward Aldermen.

November 4, 1931.

Honorable Mayor and Members of the City Council,
Lansing, Michigan.
Gentlemen,

Many complaints have been received by this Commission concerning conditions at the corner of North Street and Grand River Avenue, due to the fact that motor vehicles stop at the Standard Oil Station located at this point, and stand across or upon the space which evidently should be sidewalk space while they are being refueled.

While this situation may not come within the province of the Traffic Commission, excepting as congestion is caused upon the city streets, nevertheless, in behalf of the pedestrians consisting of school children and other inhabitants who must use this street, we are suggesting to your body that you have a sidewalk space properly designated by some sort of markings, both on the east side of Grand River Avenue and the south side of North Street at this intersection and that motor vehicles be not allowed to stand upon this sidewalk space while refueling. Further, that a crosswalk be marked at this intersection, both on Grand River Avenue and North Street.

Also, at the corner of Saginaw and Butler Streets, is an oil station whose pumps are located in such a manner that automobiles are required to stand upon the sidewalk of Saginaw Street while being refueled, causing the public to walk into the street if passing at such a time.

In both the above cases, or any other of similar nature, it would seem that gasoline pumps should be reallocated sufficiently back from the sidewalk so that motor cars or trucks, when patronizing oil stations, would not be required to park upon the sidewalk.

Yours very truly,
THE TRAFFIC COMMISSION,
CHARLES BARBER.
JAS. S. BURNS.
E. C. DUNHAM.
M. S. GRAHAM.
H. H. HARDY.

Referred to Committee on Streets and City Engineer.

November 4, 1931.

Honorable Mayor and Members of City Council,
Lansing, Michigan.
Gentlemen:

After a careful study the Traffic Commission desires to make the following requirements as a temporary trial for the further betterment of traffic conditions in the City of Lansing, to become effective January 1, 1932, with a view of making the changes permanent of they prove beneficial, as is expected.

1. Allow motor vehicles to make a right hand turn at Washington and Michigan Avenues.

2. Require motor vehicles to park parallel with the curb on Washington Avenue, between Shiawassee and Lenawee Streets; on Michigan Avenue betwen Capitol and the bridge.

3. Allow no left hand turns at the following intersections:
Washington Avenue and Ottawa Streets.
Washington Avenue and Michigan Avenue.
Washington Avenue and Allegan Street.
Washington Avenue and Washtenaw Street.

Hoping these changes meet with your approval and may be granted as an experiment, we remain,

Yours truly,
THE TRAFFIC COMMISSION,
CHARLES BARBER.
JAS. S. BURNS,
E. C. DUNHAM,
M. S. GRAHAM,
H. H. HARDY.

Referred to Committee on Ordinances.

November 4, 1931.

Honorable Mayor and Council,
Lansing, Michigan.
Gentlemen:

The Traffic Commission after careful study has decided that a few changes should be made in the traffic ordinance in order to improve traffic conditions and accordingly is making the following recommendations:

1. That no "U" turn of motor vehicles be allowed on Washington Avenue from Shiawassee to Kalamazoo streets; on Michigan Avenue from Capitol Avenue to the bridge.

Turning of motor vehicles in these blocks causes excessive congestion.

A collaborative digitization project of the City of Lansing and Forest Parke Library and Archives - Capital Area District Libraries

2. No parking of motor vehicles, excepting commercial vehicles making deliveries, before 8:30 a. m., (excepting Sundays and Holidays) on Washington Avenue from Shiawassee to Kalamazoo Streets; on Capitol Avenue between Ionia and Washtenow Streets; on Michigan Avenue between Capitol Avenue and Grand Avenue.

This will give delivering companies an opportunity to make deliveries early without being compelled to double park as at present and will save parking space for shoppers who do not arrive upon these streets before 9:00 A. M.

3. No parking on the south side of Saginaw Street between Logan and Verlinden Avenue.

Saginaw Street is a state trunk line and narrow at this point and during congested periods it is almost impossible for traffic to move.

4. Designate as through streets:
Logan Street from Main to Saginaw Streets;

Pennsylvania Avenue, except that it be a stop street at the intersection of Grand River Avenue; Saginaw Street; Michigan Avenue; East Kalamazoo Street and Mount Hope Avenue;

Kalamazoo Street, except that it be a stop street at the intersection of Logan Street, Washington Avenue and Cedar Streets;

Mount Hope Avenue, except that it be a stop street at the intersection of Logan Street, Washington Avenue and Cedar Street.

By giving the right-of-way to traffic upon these streets it will allow through traffic to move along steadily, relieve traffic from other streets and reduce intersectional accidents.

5. Repeal the following from Article A, Section 27 of the traffic ordinance:
"No parking—Main Street on the North side from Pennsylvania Avenue East 70 feet."
As there is now no congestion at this point, this space can well be used for parking purposes.

6. Eliminate traffic lights at corner of Pine and Saginaw Street.

Pine Street is a stop street at this point and the light, together with the street car turns, causes constant confusion.

Eliminate light at corner of Shiawassee and Larch Streets.

Shiawassee Street would be a stop street at this intersection and the light tends to slow up traffic on Larch Street which is a trunk line. There is a traffic Larch Street and the heavy traffic is now on Saginaw Street instead of Shiawassee.

Eliminate light at corner of Holmes and Kalamazoo.
Holmes will be a stop street at this point—light not required.

7. Place Traffic Lights at the intersection of Washington and Washtenaw and at the intersection of Capitol and Ottawa Streets.

Traffic is constantly confused at these intersections.

Hoping that you will add your approval to these changes and place them in line for enactment as rapidly as possible. we remain,

Yours truly,
THE TRAFFIC COMMISSION.

Gentlemen:

In 1932 a new registration system known as a Permanent Registration, must be installed in order to comply with an Election Law passed by the State Legislature.

Before this is commenced next spring, a number of propositions must be decided, viz.: Whether or not precinct boundaries are to be changed, quarters for housing the equipment and doing the filing, and the purchasing of suitable equipment, which will be rather expensive, and other questions which may arise from time to time. It seems advisable that a committee be appointed to investigate these subjects and make recommendations.

Yours very truly,
BERTHA RAY,
City Clerk.
